## NURSERY CO.

Good Morning:

My name is Ferris, and I am mighty glad to make your acquaintance. That means I am pleased to send you my new Nursery Catalog herewith.

My sincere hope is that through this catalog acquaintance we can establish mutually satisfactory business relations and the quality of my stock, my fair and square policy, develop this acquaintance into friendship that will make you a Ferris customer for life.

You'll find, that at all times I will meet you more than half way, to please and satisfy you, so you can send me your order large or small with the utmost confidence and the absolute assurance that you are going to get just what you order and the biggest value you can obtain, anytime, anywhere, from anybody.

Before you order, read page 5 of our catalog, telling the plain truth about Ferris' low prices, and just why, quality considered, our prices are 50 per cent below the other fellow's, and that the quality is of the very best.

For instance, all of our Roses have been grown in the open field two years, Grape Vines are two-year except in the One Dollar Bargain which are one-year, our 4 to 6 ft. Apple are as good as can be grown, and the Bulbs and Garden Roots listed under the Evergreen section of this folder are extra good. Remember that our One Dollar Bargains and our three Apple Tree Bargains are net; no free gifts with these bargain collections.

Parcels Post! Many people request shipments by parcels post, and where possible, we are glad to accommodate them. The postage can be sent collect if desired. All fruit trees should be trimmed before planting, and by carefully pruning 25 fruit trees, they can go by parcels post. We can pack 25 of our 18 in. evergreens so that they can go by parcels post, also 100 evergreens of the 12 in. grade.
